DETAILED ACTION
Terminal Disclaimer

1. The terminal disclaimer filed on 29 May 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,709,412 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1, 3-8, and 36 are allowed.

3. The following is a statement of reasons allowance: The prior art fails to disclose or suggest the apparatus and method claimed by applicant. The best prior art of record, US 5,649,903 to Deniega and US 5,591,337 to Lynn teach a blood processing system substantially as claimed by applicant including a flexible leukofilter, but fail to disclose or suggest a separate restraining structure disposed about the flexible filter along with the other steps and limitations of the claims. While filter restraints are known in the art, the prior art filter restraints are designed to restrain a flexible or migrating filter material itself—the prior art restraints are not disposed around a flexible filter housing, as claimed by applicant.
